VIVEK SUVARNA

Software Developer

Website : viveksuv.vercel.app | Mobile no. : 7756029366
Gmail : viveksuvarna063@gmail.com | Github : https://github.com/Viveks063

SUMMARY

Passionate software developer with strong foundation in full-stack development, Android app creation, and AI-powered solutions. Experienced in building innovative applications using Java, Kotlin, Python, and JavaScript. Adept at turning creative ideas into robust, scalable digital experiences.

EDUCATION

B. Tech in Computer Science Engineering
Pillai College of Engineering | 2022 - 2026 | CGPA: 7.2

Class XII
Narayana Junior College | 91.6%

Class X (ICSE)
Presidency School | 83.6%

TECHNICAL SKILLS

Languages:
Java, Kotlin, Python, JavaScript

Backend:
Spring Boot, Spring Data JPA, Spring Security, Spring WebSocket, Maven, H2 Database

Databases & Cloud:
Firebase, Room Database

Development:
Mobile (Android SDK), Web (React, Streamlit)

AI/ML:
Deep Learning (LSTM), CV (OpenCV), Transformers, LLMs

Technologies:
Firebase, Room DB, Health APIs, Pandas, BeautifulSoup

PROJECTS

Backend Development

- **To-Do List API**
  Spring Boot CRUD with in-memory database
- **Real-Time Chat Application**
  Multi-user, room-based chat using WebSockets
- **URL Shortener Service**
  Secure URL shortener with web UI
- **Blog API**
  Full-featured blog with JWT authentication
- **Microphone-to-Speaker**
  Real-time audio capture and playback

AI / Machine Learning

- **Flipkart Recommender**
  AI-powered product suggestion system
- **Image Captioning**
  Transformer-based BLIP model implementation
- **Gesture Math Solver**
  Computer Vision math expression recognition
- **Next Word Predictor**
  LSTM-based text prediction model
- **Movie Recommender**
  Hybrid recommendation engine
- **Face Detection Model**
  Real-time detection with OpenCV
- **Spanish Chatbot**
  Conversational AI for Spanish interactions
- **House Price Prediction**
  ML regression model for price estimation

Android & Web Applications

- **Fitness Tracking App**
  Health data tracking with Room DB & Health APIs
- **Alumnit Social App**
  Social networking platform using Firebase
- **Railway Ticket App**
  Real-time ticket booking system
- **Weather App**
  Weather forecasting with Android SDK & Java
- **Music Player App**
  Feature-rich player with playlists
- **To-Do List Web App**
  Task management with HTML, CSS, JavaScript
- **YouTube Video Downloader**
  Download tool with AI-powered processing

ACHIEVEMENTS & PROFICIENCIES

- Solved over 350+ LeetCode problems, demonstrating strong command of data structures and algorithms
- Independently designed and built 20+ full-fledged projects across mobile, web, Java backend, and AI domains
- Self-driven learner with proven ability to solve real-world problems using modern technologies

LANGUAGES

English, Hindi, Marathi, Tulu, Kannada, Spanish
